# INVITATION TO ATTEND

Organized by

In Collaboration with

We are pleased to invite you to participate in the Middle East Produced Water Oilfield Symposium & Exhibition, taking place in October 2025 at the prestigious Grand Hyatt, Doha – Qatar. Under the theme "Flowing Forward: Advances in Produced Water Technologies", this event will bring together global experts, industry leaders, and innovators to explore the latest developments in produced water management. Discussions will focus on emerging technologies, sustainable treatment solutions, operational efficiency, and environmental impact reduction within oilfield operations. Organized by Energy Technical Exchange in collaboration with Produced Water Society, this symposium offers a vital platform for knowledge exchange, networking, and collaboration across the produced water sector. We look forward to welcoming you to Doha as we work together to shape the future of produced water technologies in the Middle East and beyond.

Produced Water Society is delighted to host this prestigious event, providing a unique platform for knowledge sharing and collaboration among professionals and subject matter experts in the field. It will be a fantastic opportunity for industry leaders, subject matter experts, government officials and environmental professionals to come together, exchange ideas and showcase their innovative technologies, best practices and valuable lessons learned in both produced water and industrial water management.

We eagerly anticipate your active participation and are committed to creating a memorable and impactful event in 2025. Let us unite to shape the future of produced water and contribute to a more sustainable and prosperous industry.
